04

OUR COMMITMENT

GreenShades are not marketed to direct distributors, physical shops or online shops.

On the other hand, we know that the successful expansion of GreenShades depends very directly on a **network of official partners**, and we are committed to providing them with the best support and advice available to us.

In return, we ask for minimum requirements so that everyone's work is as productive and successful as possible, and so that the investment of time, energy and motivation on both sides is rewarded.

Applications from people and companies who are passionate, creative, nature-loving and/or have disruptive and innovative thinking in their area of work will be highly valued.

SingularGreen, Creative solutions based on Nature.
